Making All Things New

The preliminary recommendations from the Making All Things New Advisory Council, Archdiocese of New York that were to come out first week of April have been postponed. We are told that the recommendations will be released after Easter. When we receive them I will meet with O.L.A.'s Making All Things New Committee and with the 6 church cluster to review and, if necessary, plan our response.

I hope to be able to have a more informative report regarding Making All Things New and other topics next month.

Happy Easter!
